DESIGN

WRS Switchgear's team has a long history of working with commercial facilities and can design the most practical and efficient kitchen for your requirements.

Our ethos is "measure twice, cut once" and we will work closely on-site with engineers and contractors to design the most suitable design, and then be involved through each step of the installation to the final result is exactly what you need

SPARES & AFTER SALES SUPPORT

The investment of capital equipment into any business is required to ensure quality is maintained, however these items need to provide a required length of service to make them economically viable for the company. For this reason, WRS Switchgear stocks common spares ensuring your equipment suffers limited downtime. With stocked spares we will make every effort to ensure your valuable piece of equipment provides its years of reliable service

WHAT SETS US APART

The back up from the leading brand of Macadams, Tombake, Caterweb, Alpaco, and more, service industry experience from Dylan, Oliver and Mufaro, and the stocking of spares is what sets us apart from the trade. We value customers feedback and realise that it is essential to meet the demands of the market to provide both cost effective and quality solutions. Supply of bakery, deli and food service equipment into large supermarket retailers providing large project experience.

With leading international brands, well-established supply routes, reputable clearing agents and a focused team, WRS Switchgear is here to cater to all your catering solutions.
